2:37 AM Note - Fitness tracker warned me that my heartbeat jumped to 100bpm (and that I should start tracking before exercising to ensure accurate reporting). Weird.	3:43 PM Note - Biked 4.39mi in 26 minutes, 34 seconds with 143bpm average. Exercised medium.	4:13 PM Food - 13.0 g carbs	7:58 PM Food - 15.0 g carbs

Note - Biked ~2.9mi in ~19 minutes with a reported 116bpm average. Exercised medium.

4:34 PM

4:36 PM

Food - 17.0 g carbs

4:58 PM

Note - Biked ~2.5mi in ~20 minutes with 155bpm average. I feel fine so I'm not wasting a BG test. I forgot to disable fitness tracking so all numbers are approximate. Exercised medium.

5:23 PM

Note - Biked 1.54mi in 14 minutes, and 20 seconds with 107bpm average. Not testing sugar because I feel fine and so close to mealtime which needs testing.
